DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group (A), claim(s) 1-10, drawn to a composition containing aminomethanesulfonic acid.

Group (B), claim(s) 11-15, drawn to a method of inhibiting production of TNFalpha comprising administering said composition.

Group (C), claim(s) 16-20, drawn to a method of treating, amelioration and/or prevention of liver disease comprising administering said composition.

The inventions listed as Groups A-C do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature linking groups A-C appears to that they all relate to a aminomethanesulfonic acids. However, the claimed compound(s) is known in the art (US 3920833 and "Inhibition of the Synthesis of Taurocholic acid by Structural Analogs of Taurine", Lombardini et al., Biochemical Pharmacology, abstract, 1977, 26(12), pp. 1175-7). Therefore, the technical feature linking the inventions of groups A-C does not constitute a special technical feature as

defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

Accordingly, Groups A-C are not linked by the same or a corresponding special technical feature as to form a single general inventive concept.

2. A telephone call was made to Vincent K. Shier on August 26, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Kwon whose telephone number is (571) 272-0581. The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Low, can be reached on (571) 272-0951. The fax number for this Group is (571) 273-8300.

Any inquiry of a general nature of relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-1600.
